Cheque Deputy Commissioner

= ers no 894 dated 24-12-92

---

1. The Deputy Commissioner

* Serial no 29.

(no 853 of 6-1-92)

Cheque which, submitted

for sanction, a remission

list of the moiety of such

assessment on lands en-

under the Chelavanda

Lake in the Narsipode

Taluk, amounting to Rs

381-10-4 for the years

1890-91, in terms of the

Proceedings no 97 92-800 21

dated the 5th March 1890,

on the ground that

the water in the Lake

the DOW

has been let off by

by opening the Sluice for re-

= pairing the Lake & the

feeder Channel -

When sanction was 2

recorded to the aforesaid

remission, the Deputy

Commissioner was

requested to report the

probable time at which

repairs to the tank could

be completed, & with an

observation that the tank

was breached for repairs in

1887-88 and not restored

by the Cultivation season

of 1890-91, or for 4 Culti-

-vation seasons. which

~~thus~~ occasioned to a

Government a loss of

$\frac{1}{2}$ revenue, while the

ryots paid $\frac{1}{2}$ assess-

-ment, and raised no

wet crop thereon.

Serial no (36)

No $\frac{4343 \cdot 4}{116}$ of $\frac{5 \cdot 6 \cdot 92}{9}$

3.

Serial No 42

(No 317-9-9-30-6-92)

3. The Chief Engineer of Myd to whom Copy of the above order was sent, replied that the tank in question was never breached for repairs, and that the nature of the work Executed to the tank did not in any way throw any impediment for the usual Cultivation being Carried on & the remission of assessment already sanctioned might therefore be Cancelled.

Serial No 43

(No 342 of 13-4-92)

4. The Deputy Commissioner in reply to Proc: No 4343-4/116 of 6-7-92, States that the improvements to the tank & its feeders were Completed last year (1891).

In forwarding Copy of the Chief Engineers' no 3179 of 30.6.92, and of the enclosure, the Deputy Commissioner was asked for explanation as to the circumstances that led him to recommend the remission ~~under Consideration~~ in question, while, as the Chief Engineer stated, the repairs to the tank ~~were~~ did not prevent the usual ~~a source of prevention for the usual~~ cultivation under the tank being carried on. ~~and withdrawals of the original orders accordingly~~ The Sanction accorded to the remission was also withdrawn pending further ~~necessary~~ explanation.

Cercal no 47
(no 1436 of 23.7.92)
AF 64.92

6. ~~However~~, The Deputy Commissioner now reports

no 892 of 24.12.92

that the recommendation
for the remission was based
on the strength of the Talati
Sheristadar's Certificate
recorded at foot of the
remission statement
received from the Talati-
The Amildar, who was
directed by the Deputy
Commissioner, to furnish
explanation on the subject
explained that during
1890-91, crops under
the Tank failed for want
of sufficient water in
the tank, and that the
Certificate that "water
"was let off by opening
"the sluice for the purpose
of repairing the tank
and the fiver channel

Statement of 22-8-91.

was a mistake" -

It appears from docket no 4029 dated 9th October 385 1892, from the Executive Engineer, Mysore Dn, to the Deputy Commissioner, forming enclosure to No 892 under date, ~~it appears that~~ that the failure of crop under the tank was due to the insufficiency of water, and to other

Orders Conveyed in Pro: No 9792-800 Cir 214 of 5/8/90 empower the Deputy Comrs ~~to order the grant of exemptions or remissions on the subject of failure of crops~~ to grant ~~under rules~~ to the ryots of the village ~~or otherwise~~ to grant (subject to the orders of Government) remission of the moiety of wet assessment

as

7

on lands which cannot be irrigated owing to breach or ~~any~~ other accident to a tank or other work of irrigation.

8. In the present case, there was no breach or other accident to the tank in question, and the explanation now furnished by the Taluk Sheristadar that owing to the insufficient ~~water~~ supply of water in the tank crops were not raised on the lands, is open to serious doubts though he admits that he made a mistake in following the remarks of ~~two~~ previous years.

Submitted for orders

B. B
6/3/93

1 The tank was never breached.
In the year 1887-88 (Samvatsara) the sluice was opened & the water let out for the purpose of repairing the tank. The repairs were completed in October 1891.

The Taluk Sheristedar's Certificate at foot of the Remission statement is to the following effect —

"

Remark —

The tank is not breached. The sluice was opened so that water might not stagnate in the tank. This was done with the object of improving the tank & the Channel. The work ~~of repairing~~ was going on. and the wet lands below the tank were not Cultivated owing to want of water. The Commissioner's Office has passed orders on the Taluk Jakhta of 1890-91 (Vikrathi) that (this Case) should be included in the remission list."

4. The Remission statement was submitted under Pro: No. 9792-800-214 Dated 5th March 1890. There was no breach nor any other accident. but the tank does not appear to have been available for irrigation from 1887-88 to 1891-92.

5. Rule IV, of Not 369 of 14.3.90 requires that in the year in which the breach or other accident occurs the Dy Comr or one of his assistants shall after personal inspection during the Cultivation season decide once for all what lands are entitled to the reduced temporary ~~&~~ assessment under rule I. In this Case it

9

is not clear whether such a decision was come to after personal inspection in the first year.

6 Rule 7 requires that the revised assessment shall be adopted at each Jamabandi settlement. The Takrar Takhta containing the Jamabandi Officer's orders has not been submitted. How the Jamabandi Officer satisfied himself that the amount equal to half the net assessment should be remitted is not known.

7 Whether there has been no wet Cultivation whatever below the tank during the interval between 1887-88 & 1891-92 remains to be ascertained beyond doubt.

8 In the absence of breach or of this accident how the case was, strictly speaking, brought under the Pro: of 1890, No: 9792-80 Civ: 214 is questionable.

9 In the years succeeding that

I inspected the locality myself when the Tank was taken in hand for repair - It must have been at the time of Jamabandi of 88-89 or a little before - There was no irrigation nor rice crop -

1 Technically this is so. But all the same the [illegible] of irrigation was not in accordance with this from a deliberate act of [illegible]

in which the breach to occurs the Amildary may be required to personally inspect the lands during the cultivat season and attach a certificate of having so done in the original state-ment submitted by the Dyfaur.

10 The Jamabandi Officer also may be required to inspect the tank & the lands and to satisfy himself that the remissn recommended is justly to be granted under the rules

Memo:

Docket No. 875 of the 4th October 1890 from the Deputy Commissioner of the Mysore District

---

The Deputy Commissioner submits for sanction, 6 statements shewing the remission of assessment recommended by the Sub Division Officer, French Rocks, on certain lands under the Koppa Tank in the Maudya Taluk, which are stated to have been rendered unfit for cultivation owing to the breaches in the training bank

Memo:

Forward extract of paras 1, 2 & 3 of the Asst Commr's letter No. 411 of 23rd Augt last & the papers relating thereto for an explanation of the authority under which he ordered without the previous sanction of Govt the remission of half assessment on the lands & the amount so remitted as compensation for overflow of water through breaches in the training bank of the Kati channel - & add the query is it not a standing practice that the duty of maintaining the training bund of Kati channels is essentially one devolving on the owners of the

along the Kodi Channel.
The circumstances of the
case have been reported
by the Sub Division officer
in his letter to the address
of the Deputy Commissioner,
No. 411 of the 23rd August /90,
copy of which is enclosed.

2. The remission now
recommended amounts
to Rs 596-12-11 as shewn (not Rs 596-5-7 as entered in the Dr/Commrs docket)
below:—

For the year	1884-85	Rs 89-6-8	including local cess.	
—Do—	1885-86	" 89-11-10	—Do—	—Do—
—Do—	1886-87	" 92-5-4	—Do—	—Do—

been written off the accounts and that a formal sanction is all that is necessary in these cases.

3. It may here be submitted that these cases do not fall under the ordinary Rules which provide for the grant of remission of assessment on account of wet lands laid waste from want of water. (Please see Notification No 369 of the 14th March 1890). It is also not clear from the Sub Division officers letter how the garden lands containing Cocoanut and Arecanut trees could have been rendered unfit for cultivation

to entitle the holders
thereof for a remission
of assessment. But it
is apparent from the
remarks made by the * 27th May 187.
Sub Division officer
Mr. Venkatanarasimham
in the Jakram Jakta for
1886-87 that the holders
being entitled to some
consideration, he ordered
the remission of half
assessment and the
submission of a list
to Government for
Sanction. In accordance
with these orders, the
assessment for the 4 years
appears to have been
written off in the accounts,
though no reference
was made to Govt.
Submitted for orders.

No 411
Enc 6 statements
2 files.

Peach Rocks Sub Office
Dated 25th August 1890.

To,

The Deputy Commissioner
Kanara District

Sir,

I have the honor to submit the following report anent the complaint of certain ryots holding lands under the Koppa tank in the Hobli of that name in the Mundra Taluk.

2. The tank had been breached sometime previous to the transfer of the Hobli to the Mundra Taluk. Formerly it had two waste weirs and one of them was abandoned when the tank was vested after its transfer to the Mundra Taluk. The ryots at the time prayed that both waste weirs should be as usual kept, but the Public Works Dept decided that one was sufficient and I learn from local enquiries that they widened the one decided to be retained (Right one) and made

it strong - There was a training bank
along the Kodi channel some
distance which was breached in
three places in the heavy rains of
the year 1884-85. In consequence the
water of the Kodi channel found
its way into the neighbouring
garden and wet lands and much
damage was done thereon. The
ryots complained of this to the
Dewan, and after some corres-
pondence the then Sub Division officer
Mr. Venkatavaradiengar ordered
in the Jamabandi of the year Vrava
(1886-87) that half the amount of the
wet and garden assessment should
be remitted as compensation for
the loss sustained and this amount
is being written off the accounts
from that year - I doubt the pro-
priety of this order, as the rules re-
lating to the remission of half the
wet assessment do not apply to such
cases and the sanction of the Govt

The Record No. 4
says that more
was [illegible]
the [illegible]
[illegible]
this effect Memo
No 208 of 17th
June 1887.

was necessary before any concession was shown in the case. I must here observe that no orders have been passed anent the half assessment due for the year in which the lands were damaged and the following Jamana and Partiva (1884-85 & 1885-86) the ryots whose lands are affected have withheld payment of half of the assessment from the former year.

3. I inspected the breaches and the lands damaged. By the action of the water two of the former have cut up into one wide gap and another which is near the Kodi is much smaller. Garden and wetlands as per accompanying remission statements have been, on my inspection, found almost rendered unfit for cultivation. Every year a large quantity of sand is deposited on them when Kodi overflows and the lands become swamps during the rainy seasons. Besides these the Channel flows on

~~other~~ adjoining gardenlands when there is unusually heavy discharge from the Kodi and cuts them up. This happens rarely and on such occasions the owners come forward with complaints. But the questions are what is the remedy for this state of affairs and what relief the ryots who have suffered losses are entitled.

4. My reply to the first question is that the training bank should be restored and made sufficiently strong to resist the force of the water and the channel itself if need be widened a little distance. This is a professional question and the Public Works Department must decide it. So far as my opinion is concerned the only remedy is to restore the bank.

5. I see from the correspondence which has already passed that the Public Works Department seems to consider that it is not possible to prevent the Kodi channel from finding its

19 No. 1224

Mysore P. W. Department -
Central Office -
Bangalore 21st March 1891.

From,

The Chief Engineer
of Mysore -

To, The Chief Secretary to the
Dewan of Mysore. —

Memo:

Chief Secretary's No. 1317/6 dated 20th February 191 forwarding 264 copies of Correspondence relating to the claim for remission of revenue on certain lands below the Koppa Tank of the Mandya Taluk. —

I have the honor to report that this tank was finally restored by this Department in April 1885 the left weir was then abandoned on several ac= =counts and only one weir on the right retained and lengthened. —

The weir Channels from both weirs run on high ground and are protected on the lower side by training banks which have been constantly breaching whenever the tank discharged. —

Our records shew that these

training

training banks breached in 1881
and apparently remained so till 1883
when the right weir Channel bank
was partially repaired, but breached
again the same year, and was then
again repaired. There is no record
in our Office of the right weir Channel
training bank having breached again
until October 1887, when large breaches
occurred which have never apparently
been repaired, it would therefore appear
that no remissions on account of damage
caused by the breaching of the Channel
bank can be claimed from 1883 to October
1887, as there is no record in our Office
of any damage having occurred to
the bank during those years, although
the late Major Kensington in his Inspec-
tion Note of November 1887 states "the
"training banks of the right and left"
"weir Channels have been breached for"
"years and although the former were"
"repaired once or even oftener could"
"never have stood, the Channel beyond"
"being high and contracted." The

Esse:

Executive Engineer has now been called on to submit an estimate for repairing these breaches, and report on the possibility of widening the Channel and strengthening the bank to prevent further breaches in future. —

2. — There can be little doubt that whenever the training bank of the Vellar Mullah has breached, considerable damage was caused to certain lands below and remissions of revenue on account of such damage must be made after inspection and valuation of such damage by the Revenue Department. —

3. — There appears to be some misapprehension on the part of the Deputy Commissioner in regarding the order of the Chief Engineer "that the work to the" "new Channel extensions is sanctioned" "in 1889 should not be started until" "the contributions promised by the" "ryots had been realized"! This order refers to an estimate for Rs. 4,590/- sanctioned in November 1889, on which a cash contribution of Rs. 488/- was promised

promised by the ryots, and has nothing
to do with the repairs to the damaged
right weir Arullah banks, for which
no estimate has yet been received
from the Executive Engineer, but an
estimate for repairs to which

Tumkúr 5th November
1891.

No: 505.

To,

The Chief Secretary to the
Government of Mysore

Sir,

With reference to this Office Docket No: 439 of the 1st October 1891 stating that the Explanation called for in re=gard to the partial remission of assessment on certain lands under the Koppa Tank in the Maudya Talúk granted by me while in charge of the French Rocks Sub Division would be submitted on receipt of the vernacular papers bearing my order, I have the honor to state that the Deputy Com=missioner of Mysore in his Docket No: 2030 of the 27th Ultimo informs me that the whole correspondence on the subject was forwarded to you with his No: 875 of the 4th October 1890, and that they have not been returned to him. He having stated so on a previous occasion I requested you to send me the papers, but those sent with your

Docket

Docket No: 14402/450 of the 27th March 1891 did not contain the paper bearing the order for remission and so I again wrote to the Deputy Commissioner of Mysore to send me that paper and the above is his answer. I send herewith the papers received from you as above. If I am kindly furnished with the paper bearing the order in question I will then be enabled to submit the explanation called for.

I have the honor to be,

Sir,

Your most obedient Servant

M. Venkataramanayya

No 579

85

Camilkuri District

Dy Commissioner's Office

Camp Teora 14th

November 1891.

To

The Chief Secretary to the

Government of Mysore.

Sir,

I have the honor to acknowledge the receipt today of your docket No. 8706/185 of the 11th instant forwarding the Canarese papers connected with the remission of half assessment on certain lands damaged by the breaching of the training bank of the Hoday Valley of the Hosipa Tank in the Mandya Taluk of the French Rocks Sub division, and beg to submit the explanation called for in your Letter No: 1317/417 of the 20th February 1891.

2. The said Tank breached

in the year 1880. 81. 86 List for
the remission of a moity of
the assessment on the lands
below it for the years 1880, 81
1881. 82, 1882, 83, and 1883. 84 were
therefore prepared and submitted
year after year as can be seen
from the Amildar's report in
the Sakrar Takhta for 1886. 87
filed with the vernacular papers.
In 1884. 85 the Bank was repaired
by the Public Works department
but not the breach in the
training bank of the Kody
Valla. So when after the
repair to the Bank the Kody
discharged, water ran through
the breach in the training bank
of the Kody Valla and damaged
certain lands. Therefore half of
the assessment on those lands
for the years 1884. 85 & 1885. 86
was recommended for remission.
(Vide amildar's report afore
referred to). Subsequently when
at the Jamabandy of 1886. 87
the same question was placed
before

before me I inspected the lands, found them to have lain waste owing to the damage caused by the overflow of water, thought that their owners were entitled to consideration and accordingly in pursuance of what had been done in the previous years directed that half of the assessment on them might be remitted and a list submitted to Government for sanction. The matter was similarly dealt with at the Jamabandy of the next year, Viz: 1887-88.

3. I remember the owners of the said lands having often complained to Government about the damage caused to their lands and my having reported on the matter through the Commissioner of Mysore.

4. There is no doubt that the owners of the lands in question suffered much from the damage caused to their lands

Lands and Wks. Nankal Roads
subsequent report (No: 411 of
the 23rd August 1890 to the
Collector of Tuticorin) is
corroborative of this opinion.

5. With reference to the
query contained in the latter
part of your letter No: 13175/417
of the 20th February 1891 I beg
to state that if the Public
Works department had repaired
the training bank of the
Kody Valla along with the
head of the Tank, the damage
in question would not have
occurred and it seems to me
that it is for the Government
to see that the water from
the Kody Vallai does not
overflow the adjoining lands
and cause them damage.

6. The memorandum papers
received with your docket
under acknowledgment are
herewith returned. The English
correspondence has already

been

Have been returned with this Office
Letter — of the 5th Instant.

for information.

(4)

To

The Deputy Commissioner
of the Mazaruni District.

Sir.

Adverting to your office docket No. 875 dated 4th October 1890 submitting for sanction, 6 statements shewing the particulars of the moiety of assessment proposed to be remitted on certain lands under the Koppe tank in the Mundeya Taluk, which are stated to have been rendered unfit for cultivation owing to the breaches in the

training bank
along the Kodi Channel,
I am directed to forward
herewith, copies of the
marginally noted papers
received from the Chief
Engineer and the Deputy
Commissioner of the Tanjore
District and to invite
your particular attention
to the remarks contained
in para 1 of the Chief Engineer's
letter above ~~reffd~~ referred,
to, that no remission
on account of damage
caused by the breaching
of the Channel bank can
be claimed from 1883 to
'88, dea dea". This statement
is opposed to the reports
from time to time
made by Mr Venkatramanadaiyar
as Sub Division Officer,
French Rocks, which he even
now

×
1 Letter No 1224 dated 21st March 92 from the Chief Engineer
2. Letter No 519 dated 14th November 91 from the Deputy Commissioner Tanjore Dt.
3. Docket No 10455/210 dy 28th Decr 91 to Dy Commr Tanjore.
4. ~~Docket~~ Letter No 1078 dated 18th April 92 from Dy Commr Tanjore.

now supports, ~~to~~ to
effect but the
the lands on account
of which remission
in 1886-87
was claimed, were damaged
owing to the breach
in the training bank
of the waste weir.

2. I am therefore to request that you will be good enough to report whether the Public Works Department had no idea of the breach referred to from 1883 to October 1887, and if not, why the fact was not brought to their notice when the local authorities knew that Government interests would suffer thereby.

3. It is clear from the papers submitted that

Mr. Venkataramadiengar ~~when passing~~ ~~was guided by the~~ × in ordering the remission of half assessment for 1886-87 was guided by the remarks made by the Amildar in the Taluk Taluka that similar concessions had been shown in 1880-81 and 1881-82 when the Sammut (holeli) had been attached to the Kunigal Taluk and that the question of remitting the assessment for the subsequent two years was under discussion between the Taluk and District offices. ~~Board~~ The Government consider that Mr. Venkataramadiengar's action in allowing the remission ~~of~~ on his own responsibility without the

× Vide order on the Taluka Taluka dated 27th May 84

the subject of remissions on lands under the Koppa Tank in 1880-81 and 1881-82, reports that all the accounts & papers connected with the Sannad were sent to the Mandya Taluk in February 1883

5. Under such circumstances I am to request that a careful search may be instituted for the papers in question and the Amildar of the day called upon to submit his explanation for deliberately writing incorrect remarks ~~of which he had no knowledge~~, and thus misleading ~~his Superiors~~ the Jamabandi

Officer to pass orders
for the remission,
in pursuance of what
was reported to him
to have been done
in previous years.

6. The Statements &
all the Enclosures of the
~~Upon~~ letter under reply
are returned for
reference and resub-
-mission if necessary.

I have &c
